

BUILD. FIX. REPAIR.

**YOUR COMPLETE
ADHESIVE SOLUTIONS**

- SUPER GLUES (CA'S)
- KICKERS/ACCELERANTS
- EPOXIES
- FINISHING RESIN
- SPECIALTY ADHESIVES
- DEBONDER
- SILICONE TAPE

THE ONLY TOTAL ADHESIVE

DROP FOR DROP, ZAP CA GLUES (CYANOACRYLATES) SET FASTER AND HOLD LONGER THAN ANY OTHER TYPE OF ADHESIVE. Because they are so versatile, CAs are the most popular glues today. They penetrate (wick) into microscopic crevices of the material's surface to create a permanent bond. That is why Zap CAs work great on many materials including wood, plastic, metal and even glass.

Zap-A-Gap is even effective on oily surfaces.

Because there is no clamping, pinning or waiting for the glue to dry, Zap glue lets you finish a project or do a multi-step repair in a small fraction of the time it would take with traditional glues.

ZAP-A-GAP CA+

Zap's most versatile product! Bonds virtually anything including wood, veneers, rubber, leather and most plastics. Gap filling qualities. Zap-A-Gap even works on oily surfaces. Even adheres harder woods such as oak and plywood. Cures in 30 seconds or less.

Accelerate the cure with Zip Kicker!
Available in 9 different packages.

ZAP CA

Super-thin penetrating formula. Works great on most materials, especially balsa and other soft woods. Excellent "wicking" action. Strengthens fiberglass cloth. Bonds in 1 to 5 seconds. Available in five different size bottles.

SLO-ZAP CA

Thick and strong for high stress areas. Works well on hard woods such as maple and oak, will also bond glass, metals (non-stress) and ceramics. Allows 30 seconds for positioning and cures in 60 seconds or less.

Accelerate the cure with Zip Kicker!
Available in two different size bottles.

ZAP GEL

Premium CA Gel. Thickest Zap of all, allowing for extended fixturing times. Excellent filling qualities for wider gaps. Accelerate cure time with Zip Kicker! Available in 3 gram and 1 oz. tubes.

ZAP-RT RUBBER TOUGHENED CA

Zap has combined the strength of Zap Gel with the qualities of rubber to offer this extremely strong, vibration resistant CA. Excellent for bonding rubber to many surfaces or for high vibrate applications. Available in 1 oz. tube.

POLY-ZAP

High-performance formula for Lexan™, delron, nylon, polycarbonate, rubber, etc. Remains clear if Kicker is not used. Available in 1/2 oz.

PLASTI-ZAP

Medium viscosity for plastics. Cures clear. Won't attack paint. Great on most plastic models, car moldings, and vinyl repairs. Available in 1/3 oz bottle and 1/4 oz brush on bottle (carded).

Z-7 DEBONDER

Oderless debonding agent for all super glues. Softens cured glue so it can be easily removed from fingers and many other surfaces. Always test first. Available in 1 oz bottle.

Z-ENDS & FLEXI-TIPS

Z-Ends: Extender tips allow very small drops of glue to be placed in hard-to-reach areas. Ten tips, plus 12 inches of micro dropper tubing.
Flexi-Tips: All in one micro dropper and extended tip. Includes 24 tips in one pack.

Soft Woods, Hard Woods, Ceramics, Glass, Veneers, Leather, Plastics, Composites, Acrylic, Carbon Fiber, Rubber,

SYSTEM FOR ALL YOUR NEEDS

FOAM SAFE SYSTEM

Foam Safe CA: Ideal for polystyrene, foam board, cell foam, XPS and EPS Foam. Outstanding foam to foam and wood to foam adhesion. Can also be used on Wood, Carbon Fiber, Ceramics and many other materials. Odorless Formula.

Excellent for those who are sensitive to CA odors or allergies.

Foam Safe Kicker: Accelerator for ZAP-O and other Foam CA's. Non Fuming Formula. Available in 2 oz. pump spray bottle.

Available in 20 gram bottles.

Note: To cure properly, ZAP Foam Safe CA must be used with ZAP Foam Safe Kicker.

Z-POXY

Premium two part epoxy. Dries clear. Fuel proof, vibration resistant, durable and sandable. Excellent for woodworking and exterior repairs. Available in 5 minute (4 oz. & 8 oz.), 15 minute (4 oz.) and 30 minute (8 oz.) cure times.

2 oz. Aerosol Can

5 oz. Aerosol Can

2 oz. Pump Sprayer

8 oz. Refill Bottle

ZIP KICKER!

Accelerates CA cure time to an Instant! The highest quality accelerator available for ZAP CA's and all other super glues. Forces CA glues to set immediately.

Available in 2 oz or 5 oz aerosol can and 2 oz. pump sprayer or 8 oz refill bottle.

Z-POXY FINISHING RESIN

Two-part formula, cures in 6-8 hours and is odorless. Easy sanding. Great for glass cloth and sealing wood surfaces. Compatible with many polyester resins. Available in 12 oz. and 4 oz. kits

Z-POXY QUICK SHOT

Handy 5-minute epoxy bonds wood, metal, plastic, fiberglass, ceramic, glass, leather, and other materials! Great for on-the-spot repairs. Available in 1 oz syringe package.

ZAP-GOO

Strong flexible adhesive/sealer. Bonds almost anything. Bonds can be cut with a razor knife. Terrific for all fix-it, mend-it, and seal-it jobs. Available in 1 oz tube.

PLASTIC MODEL CEMENT

Quick setting, clear curing cement. Bonds polystyrene plastic models. Available in a 1 oz carded tube.

THREAD LOCKERS

Prevents the loosening of threaded hardware due to vibration. Blue (Z-42) is a medium locker whereas Red (Z-71) is a permanent locker. These are the best thread lockers available! For use up to 1/4-20 threaded hardware. Available in 0.2 oz. bottles.

SILICONE TAPE

Simply stretch and touch the tape back to itself to make a permanent bond. This tape leaves no sticky residue, is waterproof, airtight and seals wet or dry. Fuel resistant and unstretched will electrically insulate to 8,000 volts. Available in Black, Red and White. Carded roll of 1 in. x10 ft.

RAIL ZIP

High Tech concentrated electrical contact cleaner and corrosion inhibitor. Excellent for model railroad tracks, battery connections and other electrical junctions. Restores electrical conductivity and prevents sparking. Available in 1 oz. bottle.

AFTER RUN

Cleans engines and inhibits corrosion. Protects for months. Ideal for coating metal pushrods before inserting them into sleeves. Available in 1 oz. bottles.

FORMULA 560 CANOPY GLUE

The world's very best canopy glue. Works great on wood, plastic, fiberglass and more. Dries clear in 24 hours. Available in 2 oz bottle.
